

Leadership Waukesha County – Leadership Experience

Presentation session overview:

The goal of the presentation session is to present your LWC experience. What were the key moments that resonated with you? How do you plan to implement these new practices in your everyday life?

You will be given four to five minutes to present your key takeaways and how you are planning to use these tools in the future. Perhaps you have already started using some tools and you want to review that process. This is your chance to place your personal touch on your LWC experience. Presentations should be formatted into a PowerPoint. **YOU WILL NEED TO EMAIL YOUR SLIDES TO ERIN at eclarey@waukesha.org by June 12th!** You should also bring your presentation on a flash drive for a back up! Please note that if you exceed five minutes you will be asked to stop to ensure the entire cohort has time to present.

You should invite someone from your organization to hear your presentation. This is a great way to showcase your new skills and celebrate your accomplishments. At this session you will see a larger audience, we will be inviting the leaders who spoke at your LWC orientation and members of the Waukesha County Business Alliance staff.

Lastly, remember to use your PD plan for reference and reach out to your group/mentors for guidance. You may want to practice in front of your group. Presentation times will be assigned the week of the session.

Good luck! We are excited to hear from you!
